

Round Stic® BGuard™ Antibacterial ballpen

BIOCIDAL PRODUCT

Biocidal products are substances or formulations intended to destroy, deter, render harmless, prevent the action of, or exert a controlling effect on any harmful organism by chemical or biological means.

Use biocide safely. Always read the label and product information before use.

BIC® Round Stic® BGuard™ - classified as a biocidal product - was designed and manufactured to **suppress the growth of bacteria on all its components** in contact with the users' hands and **additionally to eliminate 99.9% of bacteria on its barrel during the full life of the product.**

BACTERIA PROTECTION

ENTIRE PEN PROTECTION

TIMELESS PROTECTION

Comply with the following European product safety regulations:

- REACH regulation (EC) n°1907/2006 and its amendments.
- European Directive 2001/95/EC and its amendments on general product safety.
- European Regulation (EC) n°1272/2008 and its amendments, relative to the classification, labelling and packaging of substances and mixtures (for inks).
- International standard ISO 11540 and British standard BS 7272-1:2008 on writing and marking instruments caps.
- British standard BS 7272-2:2008 + A1: 2014 on writing and marking instruments end closures.

ANTIBACTERIAL TESTS

The antibacterial efficiency was tested accordingly to **ISO 22196** testing protocol both on raw material and the finished product.
