

BIC Media Clic Bguard™ BIO BASED Ecolutions® ballpen

BIC® Media Clic Bguard™ BIO BASED Ecolutions® barrel is made with patented **bio-based (70%) and biodegradable (100%) material** originated primarily from non-Genetically Modified Organisms (no GMO) sugar cane or corn.

The calculation of the percentage of bio-based or biodegradable materials of our products **complies with ISO 14021 and EN 16935** standards for environmental claims and communications.

We have a process with our suppliers to ensure the traceability of all raw materials and guarantee their origins, especially regarding bio-based and biodegradable materials used in our BIC® Ecolutions® range.

BIC® Media Clic BGuard™ BIO BASED Ecolutions® - classified as a biocidal product - was designed and manufactured to suppress the growth of bacteria on all its components in contact with the users' hands and additionally to eliminate 99.9% of bacteria on its barrel during the full life of the product.

Use biocide safely. Always read the label and product information before use.

Comply with the following European product safety regulations:

- REACH regulation (EC) n°1907/2006 and its amendments.
- European Directive 2001/95/EC and its amendments on general product safety.
- European Regulation (EC) n°1272/2008 and its amendments, relative to the classification, labelling and packaging of substances and mixtures (for inks).
- International standard ISO 11540 and British standard BS 7272-1:2008 on writing and marking instruments caps.
- British standard BS 7272-2:2008 + A1: 2014 on writing and marking instruments end closures.

PRODUCT LIFE CYCLE

- Biomaterial made in Germany
- Biodegradable material under industrial conditions
- Cartridge: made in France
- Full product manufactured and printed in Spain
- Shipped in FSC certified carton outer boxes - made in Spain
